

BECOME AN AGRI- TEACHER

Want to make a change from industry to teaching?

Utilise your degree and industry experience to become an Agribusiness or Agricultural and Horticultural Science teacher.

Why?

- Teach students how Agribusiness, Horticulture and Agriculture impacts everything around them, feeds the world and fights climate change through sustainable practices.
- Teach aspects of Science, Maths, Biology, Business Studies, and Marketing within the same curriculum.
- Every day is different, every lesson is different, work inside and outside of the classroom.
- Employment opportunities nationwide.

Fonterra and Agribusiness in Schools are offering scholarship(s):

- of up to \$10,000 for the July 2025 intake
- to support the training and development of new Agribusiness teachers, ensuring the sustainability and growth of agricultural education in schools.

If this sounds like your new career, get in touch with the team now for the July 2025 intake.
