

Come Clean, Go Clean

to and from our school farm

Help us protect our animals and plants from disease, weeds and pests

Are your clothes and shoes clean?

Dirty clothes and shoes can spread weeds and diseases

Clean hands?

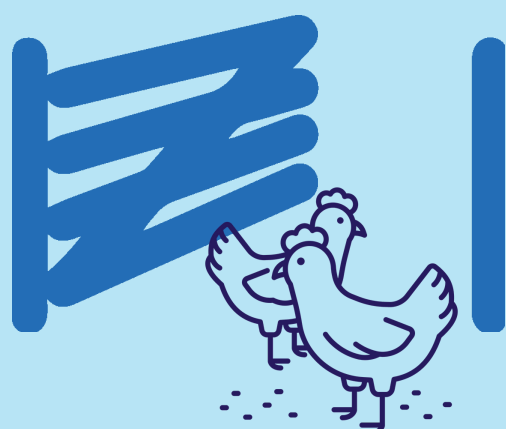

Clean hands stop the spread of disease to and from animals

Only go into designated areas to handle animals when directed by a teacher

Leave gates as you find them

People food is NOT animal food

Place your food scraps in the bin

Talk to a teacher if you have concerns about the health of our animals
