

Come Clean, Go Clean

to and from our school farm

Help us protect our animals and plants from disease, weeds and pests

Are your clothes and shoes clean?

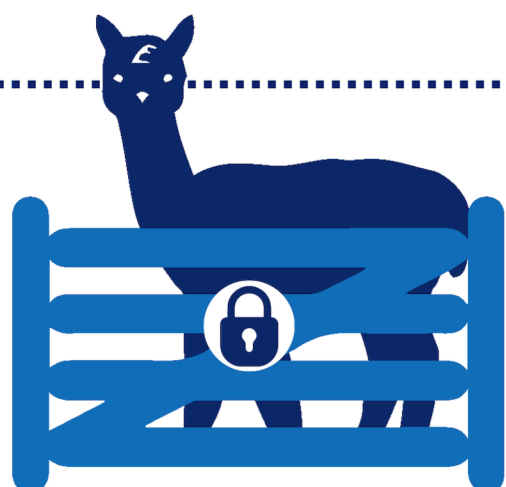

Dirty clothes and shoes can spread weeds and diseases

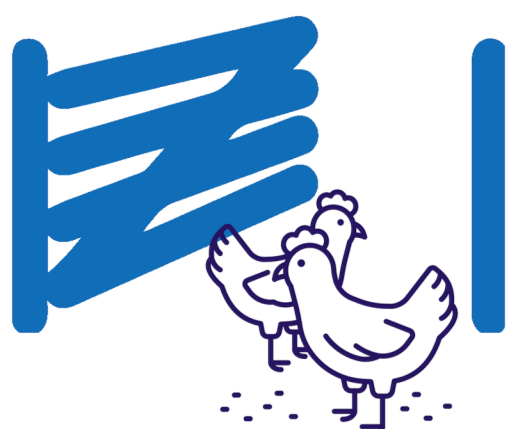

Clean hands stop the spread of disease to and from animals

Only go into designated areas to handle animals when directed by a teacher

Leave gates as you find them

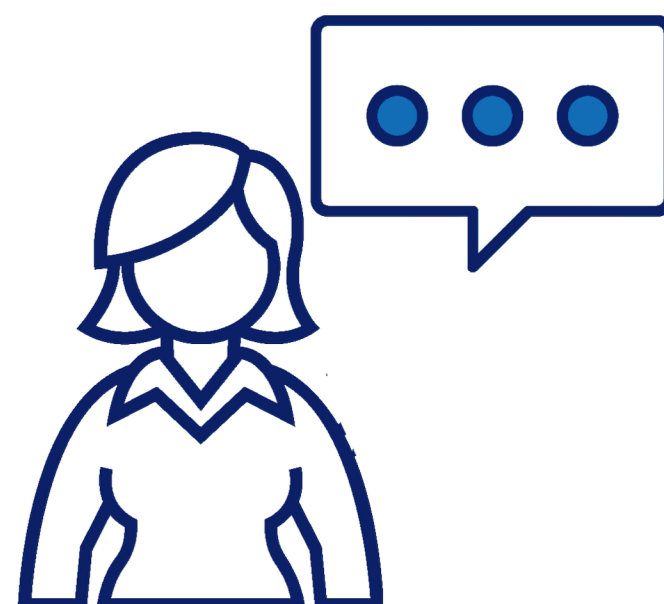

People food is NOT animal food

Place your food scraps in the bin

Talk to a teacher if you have concerns about the health of our animals or plants

This is our school farm

**help us keep our animals
safe from disease!**

**Clean hands stop the
spread of disease to and
from animals**

**People food is NOT
animal food**

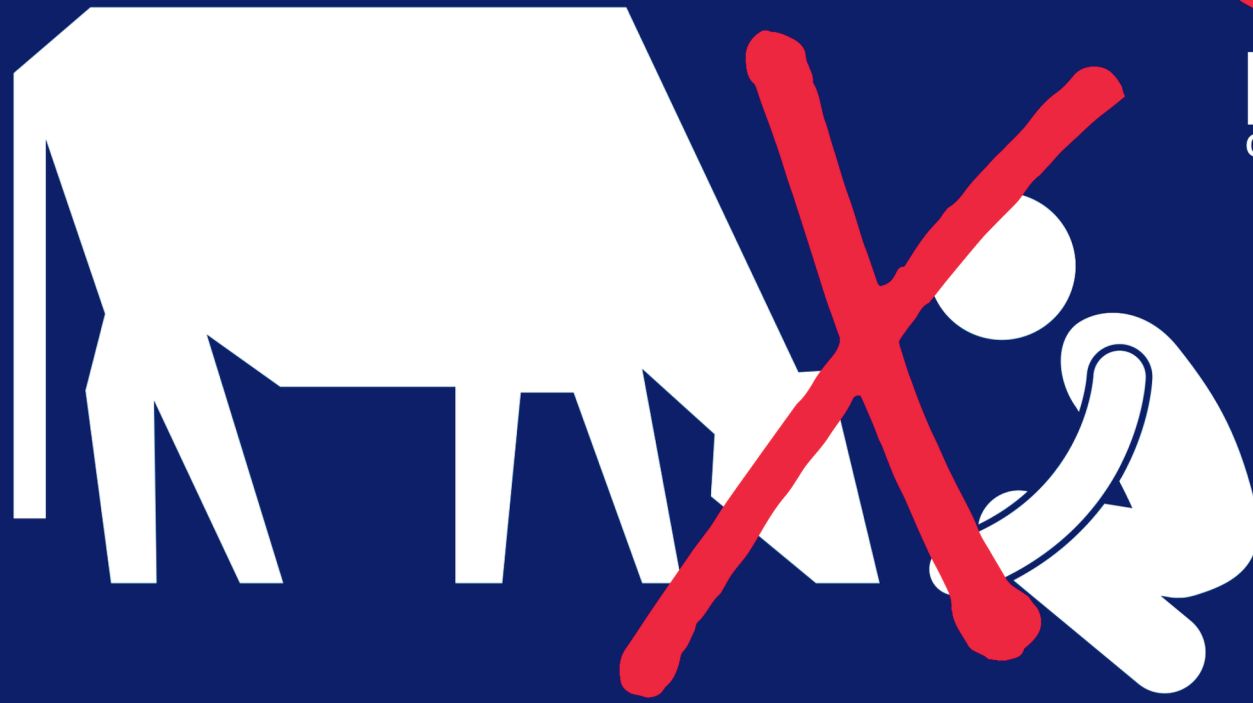

**Place your food scraps in
the bins provided**

**Talk to a teacher if you have
concerns about the health of
our school farm animals**

**Only go into designated farm
areas to handle animals when
directed by a teacher**

**Prevent the introduction of
devastating animal diseases like
Foot and Mouth Disease and African
Swine Fever into Australia:**

**DO NOT FEED
THE ANIMALS**

**It is illegal to feed food scraps and kitchen
waste that contains or has had contact
with meat or meat products to livestock**
